

Item 1 Introduction

Centurion Wealth Management, LLC ("Centurion", "we", "our", or "the Firm") is registered with the Securities and Exchange Commission (SEC) as an Investment Adviser. Investment advisory services and compensation structures differ from that of a registered broker-dealer, and it is important that you understand the differences. You should carefully consider which types of accounts and services are right for you. Free and simple tools are available to research firms and financial professionals at www.investor.gov/CRS. The site also provides educational materials about broker-dealers, investment advisers, and investing.

Item 2 Relationships and Services

What investment services and advice can you provide me? We provide investment advisory services through our investment advisory representatives ("IARs") including discretionary and non-discretionary investment management and financial planning and consulting services to individuals, trusts, and estates (our "retail investors").

When a retail investor engages us to provide discretionary or non-discretionary investment management services, we shall monitor, on a continuous basis, the investments in the accounts over which we have been granted authority as part of our investment management service. Furthermore, when engaged on a discretionary basis, we shall have the authority, without prior consultation with you (unless you impose restrictions on our discretionary authority), to buy, sell, trade, and allocate the investments within your account(s), that are consistent with your investment objectives. When engaged on a non-discretionary basis, the retail investor makes the ultimate decision regarding the purchase and/or sale of investments. Our discretionary or non-discretionary authority over your account(s) shall continue until our engagement is terminated.

We offer Model Portfolio Strategies, as well as individualized portfolios. When a retail investor engages us to provide financial planning and consulting services as part of the investment management engagement, we rely upon the information provided for our review and do not verify or monitor any such information while providing this service. We require clients to maintain a minimum asset level of \$1,000,000 which may be negotiable with your IAR. We may group certain related client accounts for the purpose of achieving the minimum account size and determining your advisory fee. For additional information, including minimum investment amounts, please see www.centurionwealth.com for our Form ADV 2A Firm Brochure (Items 5 & 7).

We also make available advisory services relating to private investments and special purpose vehicles ("SPVs") to certain eligible clients who satisfy applicable investor eligibility requirements. These services may include identifying private investment opportunities, conducting due diligence, and recommending or facilitating client investments in SPVs, which are generally offered on a non-discretionary basis. For additional information, please see our Form ADV 2A Firm Brochure (Items 4, 5 & 6).

Item 3 Fees, Costs, Conflicts, and Standards of Conduct

What fees will I pay? We provide our investment advisory services on an ongoing asset-based fee basis. When engaged to provide discretionary or non-discretionary investment management services, we shall charge a fee calculated as a percentage of your assets under our management (our "AUM Fee"). Our annual AUM Fee schedule is negotiable and generally ranges from .5% to 1.5%, depending upon the fee schedule used by your specific advisor. We deduct our AUM Fee from one or more of your managed accounts monthly in arrears based on an average daily account balance for the month. Because our AUM Fee is calculated as a percentage of your assets under management, the more assets you have in your advisory account(s), the more you will pay us for our investment management services, therefore, we have an incentive to encourage you to increase the assets maintained in accounts we manage. Specific information regarding the fees that you will be charged will be disclosed in your Investment Management Agreement ("IMA"). These fees are also described in our Form ADV 2A Firm Brochure (Item 5). We offer our financial planning and consulting services on a fixed fee basis or on a negotiated fixed fee basis. Prior to accepting your engagement, we will assess the nature and scope of the services requested and negotiate a fixed fee engagement. We may request a retainer upon completion of our initial fact-finding session with you. The balance is due upon completion of the plan. We will invoice you for financial planning and consulting fees based upon your agreed upon payment schedule.

In addition, if you invest in certain private investments or special purpose vehicles that we recommend, we may receive performance-based compensation (such as carried interest) based on the profits or appreciation of those investments, in addition to any AUM Fee you pay on those assets. This creates an incentive for us to recommend investments that pay us performance-based compensation, or to

encourage you to invest more in those opportunities, over investments that only pay us our standard AUM Fee. These fees are also described in our Form ADV 2A Firm Brochure (Items 5 & 6).

Other Fees and Costs: Your investment assets will be held with a qualified custodian. Custodians will charge brokerage commissions and/or transaction fees for effecting certain securities transactions as well as certain processing activities. Certain custodians may charge an asset-based fee in lieu of commissions or transaction costs. In addition, relative to all mutual fund and exchange traded fund purchases, certain charges will be imposed at the fund level (i.e., management fees and other fund expenses). The custodian's fees are separate from your AUM Fee paid to Centurion.

Additional Information: You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. For more detailed information about our fees and costs, please review our Form ADV 2A Firm Brochure (Item 5 & 6) which can be found at <https://adviserinfo.sec.gov/>

When we act as your investment adviser, we must act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are examples to help you understand what this means:

- We receive certain support technologies and/or services from our custodian.
- We receive greater compensation when you place more assets in your account.
- We may not charge a fee on some assets held in your account and therefore have an incentive to hold more assets on which we do charge a fee.
- We (or our supervised persons) may receive performance-based compensation, such as carried interest, in connection with private investments or SPVs we recommend, which creates an incentive to recommend those investments over others that do not pay us performance-based compensation.
- Our supervised persons may receive compensation from third parties, such as sponsors or issuers, for sourcing or facilitating private investment opportunities made available to clients.

How do your IARs make money? Our IARs are compensated by the payment of the fee collected for the management of your accounts per the terms of your IMA. Some IARs are also licensed insurance agents and receive commissions in connection with insurance product sales.

Additional Information: For more detailed information about our conflicts of interest, please review our Form ADV 2A Firm Brochure (Items 5, 6, 10 & 11).
